# Complete Guide to Free AI Tools for Creating Faceless YouTube Videos at Zero Cost

---

## Make Professional YouTube Videos Without Showing Your Face Using Completely Free Tools

---

You can create professional YouTube videos without ever showing your face. You can do this completely free. You do not need expensive equipment. You do not need a camera. You do not need to be on video. You just need a computer and internet access.

This guide teaches you how to create faceless YouTube videos using free AI tools. By the end, you will know how to create your first video.

### Part 1: Why Faceless Videos Are Popular

---

Faceless videos are very popular on YouTube. Thousands of channels make thousands of dollars per month without showing the creator's face.

**You do not have to show your face.** You do not have to worry about how you look. You do not have to do your hair or makeup. You can create videos in your pajamas.

**Faceless videos are fast to create.** You do not have to film yourself. You do not have to set up cameras and lighting. You just need a computer.

**Faceless videos are cheap to create.** All the tools are free. You do not need expensive equipment.

**You maintain your privacy.** You can create videos without revealing your identity. You can keep your real name private. You can keep your location private.

**You can focus on content.** You do not have to worry about being on camera. You can focus on making the video interesting. You can focus on teaching your audience something valuable.

## Part 2: The Five Tools You Need

---

You need five main tools to create faceless videos. All are completely free.

### Tool 1: Text Editor (For Writing Your Script)

A text editor is where you write the words that will be in your video. You can use Google Docs. It is free. You can use Notepad. It comes with your computer. You can use any word processor.

#### What to do:

- Write your script
- Make it clear and easy to understand
- Make it interesting
- Make it 3-5 minutes long

### Tool 2: AI Voiceover Tool (Natural Reader)

An AI voiceover tool converts your script into audio. The voice sounds like a real person. Natural Reader is completely free. The voice quality is excellent.

#### What to do:

- Go to [naturalreader.com](https://naturalreader.com)
- Copy your script
- Paste it into the text box
- Choose a voice
- Click Play
- Listen to your voiceover
- Download the audio file

### **Tool 3: Video Editing Software (DaVinci Resolve)**

Video editing software puts images, videos, and audio together. DaVinci Resolve is completely free. It is professional quality.

#### **What to do:**

- Download DaVinci Resolve
- Import your images and videos
- Arrange them in order
- Import your voiceover audio
- Adjust timing
- Add transitions
- Add text
- Export your final video

### **Tool 4: Free Images and Videos (Pexels and Pixabay)**

You need images and videos for your video. Pexels and Pixabay have millions of free, high-quality images and videos.

#### **What to do:**

- Go to [pexels.com](https://pexels.com)
- Search for images related to your topic
- Download images
- Go to [pixabay.com](https://pixabay.com)
- Search for videos
- Download videos

### **Tool 5: Image Generator (Canva - Optional)**

Canva can create custom images. Canva has a free version. The free version is excellent. This is optional but helpful.

#### **What to do:**

- Go to [canva.com](https://canva.com)
- Create custom images
- Download them
- Use them in your video

## Part 3: Step-by-Step Process to Create Your First Video

---

### Step 1: Choose Your Topic

Choose a topic you know about. Choose a topic you are interested in. Choose a topic people want to learn about.

Examples: Solar energy tips, DIY projects, money-making ideas, health information, technology reviews, how-to guides

### Step 2: Write Your Script

Write your script in Google Docs or Notepad. Your script is the words the AI voice will say.

Make your script clear. Make it easy to understand. Make it interesting. Make it 3-5 minutes long. That is about 900-1500 words.

### Step 3: Create Your Voiceover

1. Go to [naturalreader.com](https://naturalreader.com)
2. Copy your script
3. Paste it into the text box
4. Choose a voice you like
5. Click Play
6. Listen to your voiceover
7. If you like it, click Download
8. Save the audio file to your computer

## Step 4: Find Images and Videos

1. Go to pexels.com
2. Search for images related to your topic
3. Download several images
4. Go to pixabay.com
5. Search for videos
6. Download several videos

You should have at least one image for every thirty seconds of video.

## Step 5: Download DaVinci Resolve

1. Go to davinciresolve.com
2. Download the free version
3. Install it on your computer
4. Open DaVinci Resolve

## Step 6: Create Your Video

1. Open DaVinci Resolve
2. Create a new project
3. Name it
4. Import your images and videos
5. Arrange them in order
6. Make sure each image stays on screen long enough for the voiceover
7. Import your voiceover audio
8. Adjust the timing of your images to match the voiceover
9. Add transitions between images
10. Add text to your video
11. When you are happy, export your video

## Step 7: Upload to YouTube

1. Go to youtube.com
2. Log into your account
3. Click Upload Video
4. Select your video file
5. Upload it
6. While it uploads, add information
7. Add a title
8. Add a description
9. Add tags
10. Add a thumbnail
11. Click Publish

## Part 4: Tips for Success

---

**Tip 1: Make Your Script Interesting** - Your script is the most important part. Make it interesting. Make people want to watch.

**Tip 2: Use Good Images** - Use high-quality images. Use images that match your script. Use images that are interesting to look at.

**Tip 3: Add Transitions** - Add transitions between images. This makes your video look professional.

**Tip 4: Add Text** - Add text to your video. This helps people understand what they are watching.

**Tip 5: Use Good Voiceover** - Choose a voiceover voice that sounds good. Make sure the voice is clear and easy to understand.

**Tip 6: Make Multiple Videos** - Create multiple videos. The more videos you create, the more money you make.

**Tip 7: Optimize for YouTube** - Use good titles. Use good descriptions. Use good tags. Use good thumbnails.

## Conclusion

---

You now know how to create faceless YouTube videos using free AI tools. The only thing left is to take action. Choose a topic. Write your script. Create your voiceover. Find your images. Create your video. Upload it.

Then create another video. And another. Over time, you will build an audience. You will make money.
